PROFILE

Full-Stack Software Engineer specializing in Java/Spring Boot and Angular, with hands-on experience building data-intensive enterprise tools and ERP systems. Proven track record of optimizing performance up to 95% and delivering scalable solutions across automotive and business domains.

PROFESSIONAL EXPERIENCE

Segula Technologies - Software Engineer

11/2024 – 04/2025

- Improved data analysis efficiency by 30% by developing a Java-based visualization tool for car performance data (electric and combustion vehicles).
- Engineered 2 interactive data visualization charts using Java 2D graphics, reducing analysis time by 15% through real-time animations and synchronized component rendering.
- Built an interactive performance dashboard processing 50,000+ data points from Excel files, enabling real-time filtering and significantly reducing engineering analysis time.

Tech: Java, Java 2D, Swing, Excel Parsing

Yess Consulting - Software Engineer

10/2023 – 11/2024

- Architected and developed 2 core ERP modules (time management & competency tracking) serving 3,000+ employees, reducing HR processing time by 40%.
- Built 2 scalable REST APIs processing 10,000+ daily transactions with 98% uptime and zero data integrity issues.
- Partnered with a product owner and many clients to architect technical solutions for 50+ requirements, accelerating development cycles by 10% and eliminating 90+ hours of rework.
- Contributing to 7+ sprint planning and Agile ceremonies for a 5-person development team, contributing to approximately 15% improved delivery velocity and a reduction in blocking issues.

Tech: Java, Spring Boot, Angular, REST APIs, PostgreSQL, SQL, Git, Agile (Scrum)

Yess Consulting - PFE Engineer Intern

01/2023 – 07/2023

- Designed and developed a comprehensive social club management web application serving 3,000+ members, automating event scheduling and member tracking for 10+ monthly events.
- Digitized operations by replacing manual paperwork and Excel files, reducing planning time by approximately 98% to near-instant execution.

Tech: Spring Boot, Angular, JSF, PostgreSQL

ETAP - Engineering Intern

07/2022 – 09/2022

- Reduced operation validation time by approximately 95% (from 3 weeks to 1 day) by building an internal web app to automate business workflows.

Tech: Angular, Node.js, Express.js, MongoDB

TimSoft - PFE Intern

02/2020 – 08/2020

- Developed an end-to-end e-commerce platform serving 150+ customers with payment processing and inventory management, delivering 12 iterative releases over 6 months using Agile methodology.

Tech: *Angular, Node.js, Express.js, MongoDB***Al Baraka Bank - IT Intern**

07/2019 – 08/2019

- Managed digital banking operations for 300+ daily transactions across 3 channels (Internet, Mobile, SMS), maintaining 99.5% system availability.

Tech: *PowerCard, POS Configuration***ATFP - Senior Technician**

01/2019 – 02/2019

- Developed a PHP/MySQL web app to track IT equipment inventory across 3 sites, streamlining check-in/check-out and asset management, speeding management and logging time by 3x.

Tech: *PHP, MySQL, Bootstrap, HTML, CSS, JavaScript*

SKILLS

Core: Java 17, Spring Boot 3.5, Angular 19, PostgreSQL 15, Maven, Gradle, REST APIs, Spring Security, Hibernate, JPA, Microservices

Other: Node.js, Express.js, React, Angular Material, HTML5, CSS3, JavaScript, TypeScript, Bootstrap 5, MySQL, MongoDB

Dev & Practices: Git, GitHub, GitLab, Docker, CI/CD, Jenkins, JUnit, Mockito, Agile, Scrum, DevOps

LANGUAGES

Arabic: Native **French:** Professional Working Proficiency **English:** Fluent **German:** Basic

CERTIFICATIONS

Certificate of Participation - INJAZ Tunisia Company Program

EDUCATION

ESPRIT

09/2020 – 09/2023

*Software Architectural Engineering (Software Engineer)***ISSET Charguia**

09/2017 – 09/2020

Computer System Development
